

Andrea S. Wiseman, RDH

“What’s Preventable – Embrace the Power of Prevention”

April 4th, 2017: 6:00 p.m. - 9:00 p.m. (Check-in begins at 5:30pm)

Course Description: The area of “Prevention” in dentistry is changing rapidly, including risk assessment, treatment protocols and products. This education program will provide you with valuable information that you can easily implement in your practice as a way to improve care for your patients and benefit your practice.

Learning Objectives:

- Discover the benefits of caries risk assessment program (CAMBRA)
- How to implement caries risk assessment program into your practice
- Understand fluoride medications and how to use them consistently
- Learn treatment options, protocol, patient dialog, insurance codes for sensitivity, caries, gingivitis, and periodontal disease.
- Learn how to motivate, educate and medicate your patients differently

About: Andrea S. Wiseman, RDH

Andrea S. Wiseman, RDH is a National Preventive Specialist for 3M Oral Care, and brings over 30 years of experience in dentistry to her presentations. Andrea has been a member of the American Dental Hygiene Association since 1995. She has also been a member of the Texas Dental Hygiene Association, past president of the San Antonio District Dental Hygiene Association and Gulf Coast Dental Hygiene Society of Ft. Myers, FL. She is a mentor to all oral healthcare providers and an advocate against oral diseases. Her presentations have included venues at Yankee Dental Association Meeting (2013), Seattle Study Clubs, Dental Hygiene Association State Meetings, Dental Association State Meetings, and large group dental practices, providing C.E. credits on the Power of Prevention. She has been an instructor at Austin Community College Dental Assisting Program, and has helped educate students at dental assisting schools, dental hygiene colleges, and dental colleges across the country on current standards of care and technologies in dentistry.
