Mayo Clinic Minnesota

---

**“Peri-Implant Diseases & Implant Maintenance:  
What do I need to know?”**

*January 19<sup>th</sup>, 2016  
5:30 pm & 7:30 pm*

**Course Description:**

Every year the percentage of patients who have dental implants is higher. Implant maintenance and diagnosis of peri-implant disease are mandatory skills to provide a state of the art dental care. This presentation will discuss appropriate diagnosis, prognosis, evidence based treatment and maintenance for these conditions. Many clinical cases will be presented in order to enhance the understanding and management of these clinical situations.

**After this course, the participant will be familiar with:**

- Detection and diagnosis of peri-implant disease
- How to clean dental implants
- Assessment of soft tissue defects around implants
- Non-surgical management of peri-implant mucositis
- Surgical management of peri-implantitis (resective/regenerative/combine)

**About Dr. Vidal Gonzalez:**

*Dr. Vidal Gonzalez completed his dental training and GPR residency at Universidad de Barcelona in Barcelona, Spain. He then came to the United States and completed his Periodontics training at the University of Louisville in Kentucky. He received his Masters of Science in Oral Biology and Certificate of Periodontics from the University of Louisville in 2008. Currently Dr. Vidal Gonzalez works at the Mayo Clinic in Minnesota as a Senior Associate Consultant and he specializes in esthetic periodontal and implant surgery. His research articles have been published in the Journal of Periodontology and other peer reviewed dental journals. Dr. Vidal Gonzalez has lectured nationally and internationally and he was awarded with the 2012 Educator Award, American Academy of Periodontology.*
