

“Topic: Because You Can’t See Sterile”

Please Choose Only ONE Night to Attend.

September 10th, 2018: 6:00 p.m. – 8:00 p.m. (Check-in begins at 5:30pm)

In Fort Mill, SC

September 11th, 2018: 6:00 p.m. – 8:00 p.m. (Check-in begins at 5:30pm)

In Charlotte, NC

Course Description:

The ultimate goal of instrument processing is to provide sterile patient care items. The course will review the basic premise of instrument management through the entire handling, cleaning, sterilization, monitoring and storage cycle.

Learning Objectives:

After attending this session, the participant will be able to:

- Discuss the purpose of developing a sterility assurance program and review the guidelines for compliance
- List and describe the six levels of instrument processing and management
- Discuss the various methods of sterilization and identify the benefits and challenges.
- Identify the application of various sterilization process parameters including mechanical, chemical, and biological monitors
- Discuss the differences in biological indicator designs and performance.
